

Expected Values (for X): $E(Y|X)$

N = 1000 Bandwidth = 0.2542

Expected Values (for X1): $E(Y|X1)$

N = 1000 Bandwidth = 0.2542

First Differences: $E(Y|X1) - E(Y|X)$

N = 1000 Bandwidth = 0.2542
